

## **W20 Slot Waiver at KHH**

Dear All,

In consideration to the continuing impact of COVID-19 pandemic to the aviation industry, and in order to support airlines in this challenging period, Airport Coordination Taipei is extending slot use waiver for the W20 season, subject to the following conditions:

1. Waiver applies to slots which were allocated for W20, provided airlines return slots that they do not intend to use at least 4 weeks prior to planned operation;
2. Newly allocated slots will not receive waiver, if their availabilities were as a result of cancellations due to COVID-19;
3. ACT reserves the right to cancel above condition (1) and waiver if the Slot Facilitator in countries where KHH based airlines operate exercise its discretion differently. In such case the decision will be made on reciprocal basis.
